

## The Home Working impact code

Data based on 320,337 respondents as at 30.09.22

The data here shows the overall performance figures across all lines of standardised data for the entire database and highlights the differences between the Leesman average (all global data) and the Leesman+ high-performance group, all of whom have achieved a Leesman Lmi of 70 or above\*.

The Global/Leesman+ gap column shows the percentage point differences, while the gap ranking to the right shows where that Activity or Feature would sit if the data was ranked by the gap. The higher the number in the Global/Leesman+ gap column, the greater the difference between the Leesman global average and the Leesman+ spaces. These high-ranking Leesman+ differences are arguably where and how these workplaces are delivering the greatest benefit to their employees and so ultimately contributing most to employee performance.

\* A Leesman+ award is granted to those individual workplaces with a minimum of 50 respondents that achieve an Lmi of 70 or above, and also meet the response rate criteria of a maximum 5% margin of error at a 99% confidence level.

### Home working setting

	A dedicated work room or office <b>49%</b>	H-Lmi <b>79.1</b>
	A dedicated work area (but not a separate room) <b>30%</b>	H-Lmi <b>74.5</b>
	A non-work specific home location (such as a dining table) <b>22%</b>	H-Lmi <b>66.2</b>

### Q1. How much do you agree or disagree with the following statements about working from home?

	% In agreement overall	% In agreement Office benchmark	% Overall / Office benchmark gap	% In agreement Leesman+	% Overall / Leesman+ gap
1.1 I have access to all of the software applications/programs I need to work from home	91.5	-	-	-	-
1.2 When I work from home, I have access to all of the information needed for the work that I do	86.6	-	-	-	-
